NEU NEW
NOUVEAU

50 Years of EZetil® Cooling Products

The market demands brand names.

This is the foundation upon which our company produces and distributes IPV sport-camping and leisure products. Our name speaks for product quality, top customer- and delivery service as well as a proven consumer acceptance. This has always been and always will be the philosophy upon which we do business with our customers.

We are very proud to celebrate our 50th anniversary in 2003 of EZetil® Coolers and Coolbags delivered from Hungen/Germany.

This anniversary is an occasion and a challenge for us to continue combining the brand name EZetil® with innovative and trend setting cooling products.

Your IPV- Team

Les sacs isothermes EZETIL sont fabriqués en polyéthylène haute densité (PEHD) et sont conçus pour transporter et conserver au frais les aliments et boissons pendant les vacances et les déplacements. Ils sont disponibles en différentes tailles et couleurs. Les sacs EZETIL sont très pratiques et faciles à utiliser. Cooler and Warmer

High Performance Thermo-Electric
Cooler and Warmer

EZetil®

NEU
NOUVEAU

Mobile Cooler with self-regulating thermoelectric technique.

The interior temperature can be regulated due to automatic change-over from cooling to warming operation ! An EZetil®-Idea !

- **Temperature can be regulated.** LCD temperature control visible from outside the cooler.
- **The climate control** allows variable regulated interior temperature and adjusts automatically due to the change-over from cooling to warming operation.
- **Special advantage compared to other cooling products:**
The food and beverages are **protected from accidental freezing** during freezing environmental temperatures.

Important for all-year campers and owners of weekend homes!

- Independent from the climate control the cooler has **two additional functional switches "maximum cooling and maximum heating (up to 65°C / 149° F)**. By choosing this function the cooler operates like regular coolers and warmers with a thermo-electric cooling system.
- **2 Years Manufacturer Guarantee.**

TUV
GS CE
Made in Europe

The EZetil® High Performance Cooler and warmer is ideal for beverages, especially for wines which require a certain temperature. *Can be used as a mobile wine cellar!*

Simply regulate required temperature and enjoy:

	Degree Celsius	Degree Fahrenheit
