# LG SIDE-BY-SIDE REFRIGERATORS

A breath of fresh air for your life.  
Innovative style and technology for your kitchen.  
LG Electronics is always there for you.

## LG SIDE-BY-SIDE REFRIGERATORS

**Side By Side Refrigerator with careful thought of the environment, and you.**

### **Green Technology**

The latest Linear Compressor keeps the energy consumption and noise levels to the lowest possible output. The HFC Free Refrigerator also protects your home environment and the earth.

### **Style**

Contour Style blended with a refined and modern style.

### **Health**

Variety of technology used to protect the health of your family.

**BioClinic™**, **BioSilver™**, **BioShield™**, etc.

### **Fresh**

**Icebeam™** Door Cooling, **OptiChill™**, **miracle zone™**, Jet Freezing, etc.

### **Convenience**

Taller & Wider Dispenser, In-Door Water Tank, Tilt Out Basket, Slide Out, Spill Stop™ Shelves, etc.

# Linear Compressor

---

## Green Technology with Linear Compressor

---

The latest Linear Compressor keeps the energy consumption and noise levels to the lowest.  
LG's Refrigerator also protects your environment and the earth.

# Linear Compressor

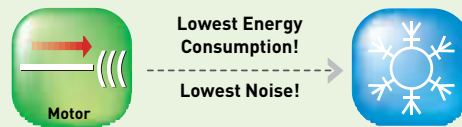

## Reciprocating Compressor

- Using the Crank shaft to convert rotary motion to reciprocating motion  
→ 4 friction parts
- Constant Displacement
- Peak Noise when it starts & stops

## Linear Compressor

- Using an extremely Efficient Linear Motor
  - Piston combined Directly with Linear motor
  - No Crank Shaft → Low friction & Side force
- Direct Suction System
- Free Piston → Variable Capacity Control System
- Soft Start & Soft Stop System

## Lowest Energy Consumption

Existing compressors compress refrigerant by changing the rotating movement of the motor into a linear movement, resulting in an energy conversion loss of about 20 percentage. But the linear compressor has a motor that moves linearly, meaning no energy loss.

## Lowest Noise...

The linear compressor has a motor that moves linearly to reduce energy consumption and has no connecting parts that could lead to wear or friction, drastically reducing the noise level to 39dB, far better than the 41dB of noise typically found in Side-By-Side Refrigerators. This means that LGE Refrigerators now have the lowest noise level.

# Icebeam Door Cooling™ System

## Icebeam Door Cooling™ System

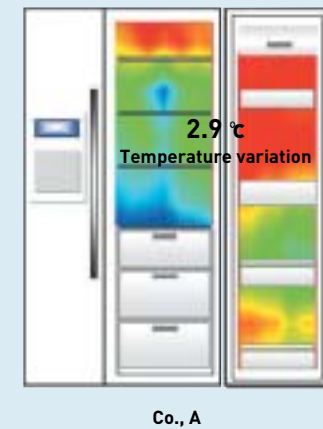

### Technology makes freshness difference

Icebeam Door Cooling™ is LG's unique technological innovation of cooling system by which the cool air flows out not only from the back side but also from the side vents of the refrigerator. This new cooling system evens the temperature throughout the refrigerator maintaining constant and optimal refrigeration level.

LG Side-By-Side Refrigerators outperformed in the test of even cooling with temperature variation of 1.2 °C while competitor's resulted in 2.9 °C

LG Side-By-Side Refrigerators provide you with freshness, nutritional value, texture, and flavor of food for longer period of time.

# Digital Cooling System With Multi Sensors

## Digital LCD/LED Controls

The desired temperature is indicated in icons and numbers, and the room temperature is marked in numbers.

- **EXPRESS / SUPER FRZ** : Express / Super freezing button
- **DISPENSER** : Dispenser option mode button
- **FRZ TEMP** : Temperature-setting button for the freezer
- **REF TEMP** : Temperature-setting button for the refrigerator
- **FILTER RESET** : Filter Reset button
- **LOCK** : Lock / Unlock button

### Energy-efficient Feature

The backlight in the LCD window automatically goes off when no activity is detected for a minute.

### Dispenser Option Mode

Upon pressing the button, you can make a choice of water, crushed and cubed ice respectively.

## Digital Multi Sensors

Digitally-controlled sensors closely interact with micro-computer mounted PCB which detects and controls temperature effectively and precisely. LG Side-By-Side Refrigerators' high performance capabilities in digital cooling provide you with the most convenient life style!

- A : Room temperature sensor
- B : Ice making sensor
- C : Freezer sensor
- D : Defrosting sensor
- E : Refrigerator sensor
- F : Refrigerator sensor
- G : Miracle Zone sensor
- H : In-Door Water Tank

- Sensors Visible(mounted on the surface)
- Sensors Invisible(embedded)

# Performance

## Jet Freezing

Directly cold air cures to the drawer in freezer department which makes food quickly frozen.

### Effect of food freshness

#### Jet Freezing

Maintains Regular segment structure

No Dripping (nutrition kept)

#### Conventional

Decomposition of a part delicate organization

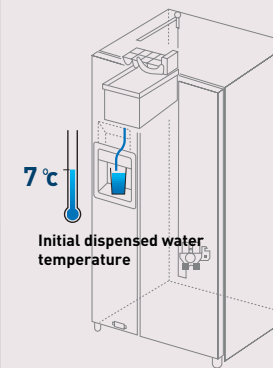

Dripping (nutrition loss)

## In-Door Water Tank

Water tank is inside freezer door form, so you can drink cold water from the first dispensed water.

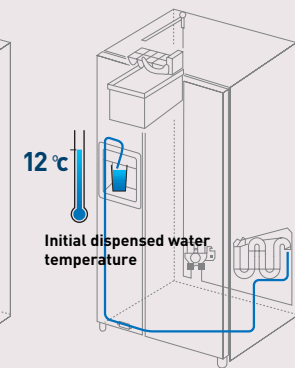

**In-Door Water Tank**  
(Side View)

7 °C  
Initial dispensed water temperature

**In-Door Water Tank**  
(Perspective View)

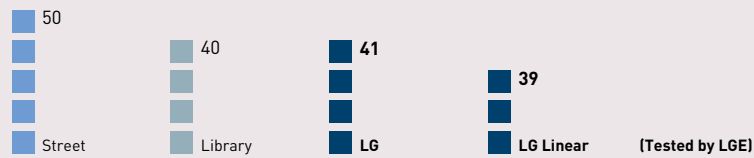

12 °C  
Initial dispensed water temperature

**Conventional System**  
(Perspective View)

## Low Noise

LG Side-By-Side Refrigerators have realized the lower level of noise that is close to the library's.

Noise Level \_ Sound Power.dB(A)

## Fast Cooling Technology

Specially designed, highly efficient fan along with the BLDC motor which controls the number of revolutions automatically as well as highly efficient compressor which promotes the optimal circulation of cold air and super freezing function.

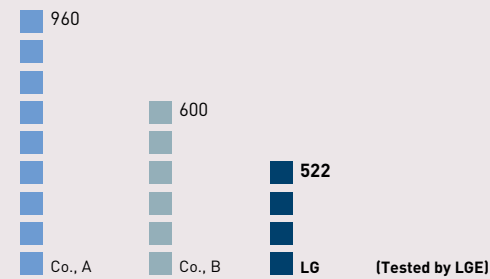

Cooling Speed \_ Freezer Compartment 30℃ → 5℃(min.)

## Energy Saving

Digital Cooling System helps to achieve low energy consumption with highly efficient compressor and BLDC Motor.

Energy Consumption \_ Electric Power(KWh/year)

Highly Efficient Compressor

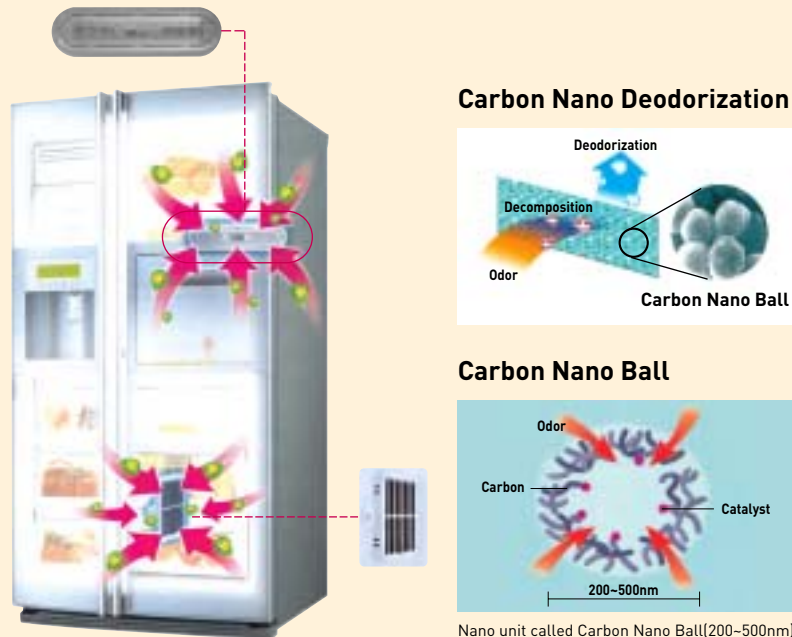

BLDC Motor

# Health Care

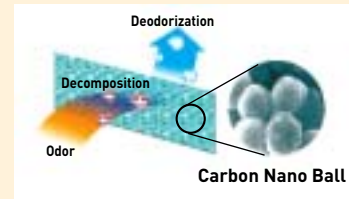

## BioClinic™

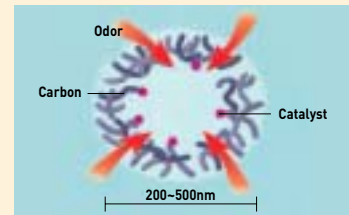

BioClinic™ absorbs interior odor  
4 times better than previous models thanks to Nano Technology.  
The Nano revolutionary technology has made it possible to break down carbon particle.

### Carbon Nano Deodorization

### Carbon Nano Ball

Nano unit called Carbon Nano Ball(200-500nm) consists of special pore which absorbs the various odor particles.

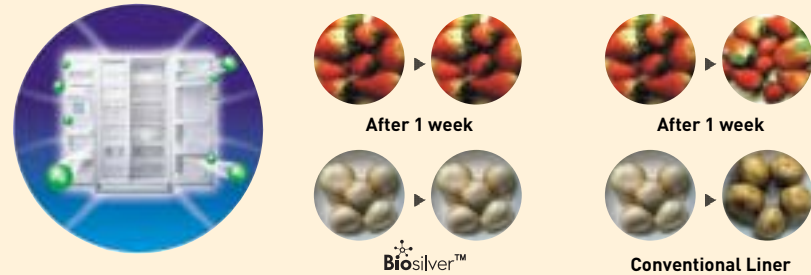

## Biosilver™

### Liner

Inorganic Silver-Ion-Coated Liner protects from bacteria, fungus and yeast.  
Biosilver™ has been acknowledged by several authorities.(FDA, EPA and SIAA)

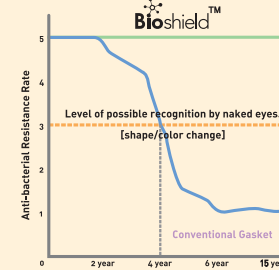

## Bioshield™

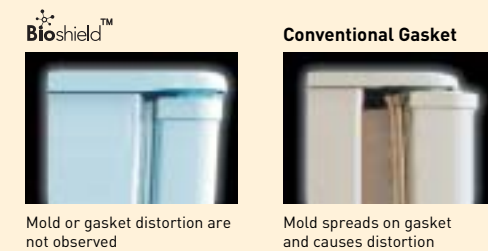

### Gasket

Gasket made of anti-bacterial agent prevents gasket distortion caused by bacteria propagation.

### Effect

### Gasket Distortion Test Result

Mold or gasket distortion are not observed

Mold spreads on gasket and causes distortion

# Freshness

## OptiChill™

You can keep the food more fresh with adequate preservation temperature in Optichill™ controlled by 4 temperature variations.

**Wine** 10°C

**Fruits / Vegetables** 4°C

**Chilled Room** -1°C

**Partial Freezing** -3°C

**Thaw** **Quick Cooling**

**Thaw**

**Quick Cooling**

## Miracle zone™

Maintains freshness, allowing you to select just-right temperatures according to your need. Using specialized temperature setting, optimum temperature for respective food can be adjusted by preventing moisture loss with accurate Temperature Control Technology.

4°C **Fruits / Vegetables**

-1°C **Fish**

-3°C **Meat**

## Magic Crisper™

Guarantees freshness by controlling moisture level.

This is a special lattice-type box cover which controls moisture at optimum level.

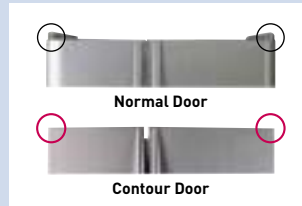

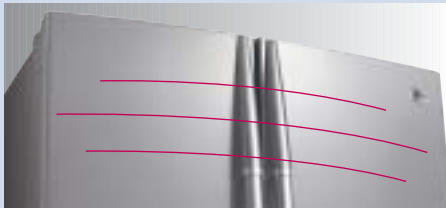

Depending on the moisture level of stored food, moisture is evaporated at high humidity while moisture is condensed at low humidity due to its grid patterned structure, therefore retaining just the right amount of moisture to enhance freshness.

**Conventional Crisper** **Magic Crisper™**

**High Humidity Level** **Low Humidity Level**

# Stylish LG Side-by-Side Refrigerators

## Contour & Hidden Hinge

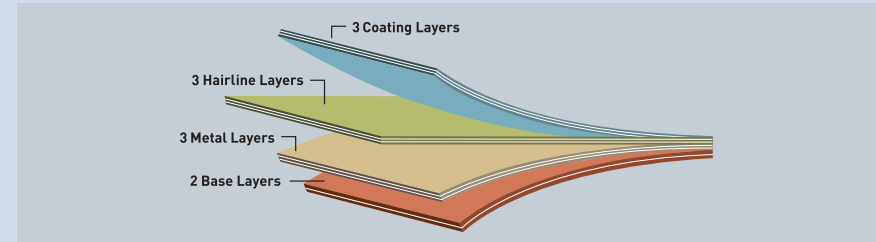

LG provides Contour & Hidden Hinge for your delicate taste.

## Taller and Wider Water Dispenser

You can select crushed or cubed ice or chilled water by simply pressing the button on the electronic control pad.

## Titanium™

### 11-Layer Vinyl-Coated-Finish

Titanium™ is 11-layer vinyl-coated-finish uniquely developed by LG.

Each layer represents its own characteristic sensation while it decorates the kitchen with a luxurious metallic appearance as a whole.

### Reduced Finger Prints and Scratches

Titanium™ has undergone surface hardening process that helps to minimize finger prints as well as surface scratches.

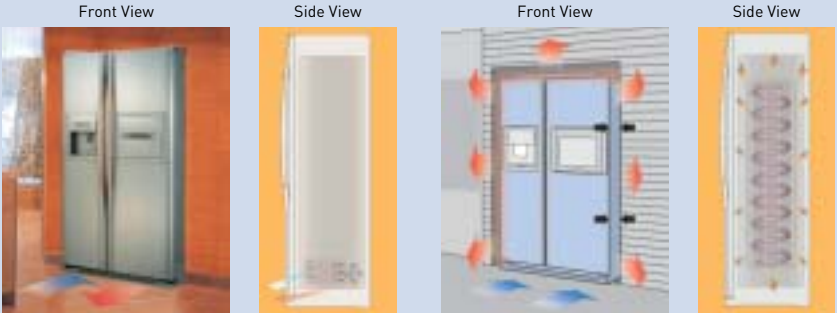

# Built-In Style

LG Side-By-Side Refrigerators are specially designed for Built-in kitchen with dimensions of case depth 600mm and width 890mm.(For 19, 20 and 21 cu.ft.models)

## Front Air Ventilation with Fan Cooling

There should be more than 5cm space around typical Side-By-Side Refrigerators to emit heat generated from condenser which is placed in the side wall of the refrigerator. However, LG Side-By-Side Refrigerators can rightly fit into the wall because fan cools heat emitted from the bottom-placed condenser through front in-and-out air ventilation.

LG Side-by-Side Refrigerators

Co., A

LG SIDE-BY-SIDE REFRIGERATORS

# Internet Digital Refrigerator

What LG Electronics brings you is a masterpiece.  
Internet Digital Refrigerator leads your family's focus to a kitchen.

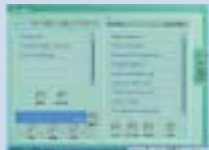

Internet Digital Refrigerator developed exclusively by LG's dream technology is a state-of-the-art home appliance to guide you to the world of home networking allowing you more convenient and easier life.

### COMMUNICATION WITH SOCIETY

**TV** 15.1" Digital LCD Screen with high quality picture image-the perfect addition to the most elegant kitchens!

LG's digital technology exclusively introduces large LCD touch-screen monitor. It allows you to see full flat 15.1" TFT-LCD screen clearly from any angle.

**Music** Playing beautiful music in your kitchen!

It allows you to enjoy MP3 music and internet FM radio in clear digital sound quality downloaded via internet.

**Internet** Internet-enables kitchen!

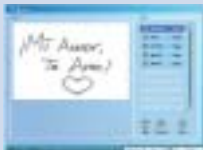

This allows you to shop, do your banking send/receive e-mails from the comfort of your kitchen.

### COMMUNICATION WITH REFRIGERATOR

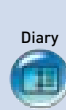

**Album** Snap joy of your life natural!

A built-in photo feature allows you to take a snap shot of life at any moment.

**Memo** Message of love!

Leave a message for your loved ones via video, text or audio. The special electronic pen also allows you to leave a drawing for your family and friends.

**Diary** Check each family member's schedule!

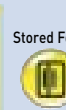

It allows you to record special occasions such as birthday, anniversaries, and picnics.

### COMMUNICATION WITH FAMILY

**Cooking** Full of cooking information!

This provides you with cooking information by course, ingredient and country. Also, it allows you to search recipes available with the remained food.

**Stored Food** Checking conveniently with icon!

This provides you with information of the current stored food list and their expiration dates by its storage compartment.

**Management** Good job on management!

If an error is detected, the self-diagnostic feature reports to the cyber service center via internet.

LG SIDE-BY-SIDE REFRIGERATORS

# TV Refrigerator

TFT LCD TV Refrigerator developed exclusively by LG's dream technology is a state-of-the-art home appliance allowing you more convenient and easier life.

13" TFT LCD Screen with high quality picture image-the perfect addition to the most elegant kitchens!

Connection of DVD, VHS, TV Cable

Tuner Type : PAL-I, SECAM, PAL BG (Cable Ready)

# Convenient Features

## 01. Water & Ice Dispenser

Full Electronic controlled Water & Ice Dispenser delivers chilled water, cubed and crushed ice.

## 02. Tilt-out Freezer Door Bin

Tilt-out Freezer Door Basket conveniently tilts forward for easy access to food stored inside.

## 03. Portable door basket

Place to store food which has to be taken out frequently.

## 04. Room Plus™(for 24, 25, 26, 27 cu.ft.)

6 Liters extra space is secured in the freezer compartment.

## 05. Triple Twist Ice Tray(for Basic models only)

Triple Ice Tray with Twist levers provides you with convenient ice cube handling.

## 06. Two Freezer Drawers

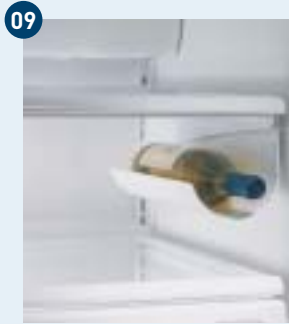

Freezer Drawers allow you to store food neatly and separately.

## 07. Built-In Water Filtration

LG Built-In Filtration system guarantees clean water through Water & Ice Dispenser as much as possible.

## 08. Full-width Slide-out Snack Corner

Place to store food which are frequently used.

09

**09. Wine Rack**

Wine or Beverage Rack offers convenient storage of tall bottles.

10

**10. Humidity-adjustable Vegetable Box**

Optimal level of freshness is guaranteed by using humidity controller for meat and vegetables to control the moisture.

11

**11. Folding Shelf**

Folding shelf allows you to store food regardless of size.

12

**12. Jet Freezing**

Directly cold air cures to the drawer in freezer department which makes food quickly frozen.

13

**13. Slide Out, Spill Stop™ Shelves**

Slide Out, Spill Stop™ Shelves help contain spills for ease of cleaning.

14

**14. BioClinic™**

LG's BioClinic™ efficiently removes odors and bacteria.

15

**15. Miracle Zone™**

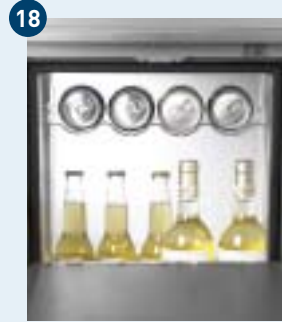

Specialized temperature settings let you optimize cooling for Vegetables, Meat and Dairy Products.

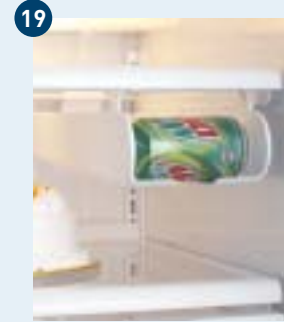

16

**16. Magic Crisper™**

Grid-patterned vegetable crisper retains optimal level of moisture for more fresh and longer storage environment.

17

18

**17. Wide Lower Lamp**

Wide Lower Lamp reinforces brightness in every corner of the Refrigerator Compartment.

**18. Can Holder**

You can save home bar space, and reach to the cans more easily.

19

**19. Can Server**

Easy to store cans and easy to get to the cans.

**20. Bottle Guide**

In gallon storage door bins, you can also store small bottles. Because bottle guide prevents the small bottles from falling when you open and close doors.
